Profile

Shoe-sponsor: [On running](#)

Run2gether owes almost everything to Geoffrey! He is not only coinitiator and co-founder of the run2gether idea and our most successful marathon runner. He is also heart and brain of the run2gether-team. His experience and spirit forms our professional running-team and is a role-model for our athletes.

A persistent and long lasting injury of the Achilles tendon on both legs forced him to take a complete break in 2015. Geoffrey was totally focused on treatment, rehabilitation and change of his running-style. Still not free from symptoms he started his training in late 2015 again. Unfortunately the certainty in 2016 – the Achilles tendon still prevented professional marathon-training! Thus we were all more delighted about Gikuni's great comeback on short distance at the Kitzbühler Horn Mountain Run in August 2016!

After a long period of intense training Gikuni is back to Europe and got rewarded with his victory at the Großglockner mountain run 2017 and again 2018! Proud to have this role model in our team!
